FOR IMMEDIATE RELEASE

GENERAL

Incident Type: Water Rescue

Date: Tuesday, July 15, 2025

Address: 3401 Calumet Dr. Jaycee Quarry Park

Alarm Time: 14:09

Incident Resolution Time: Ongoing

DESCRIPTION

On July 15, 2025, at approximately 1409 hours, the Sheboygan Fire Department received a report of a drowning victim last seen in the water at **Jaycee Quarry Park**. A water rescue alarm was dispatched immediately, and MABAS Division 113 Dive Team was activated for mutual aid response.

Sheboygan Fire units arrived on scene within four minutes of being dispatched and deployed the rescue swimmers within two minutes after arrival. A coordinated search pattern in the last seen area was completed without success. Three rescue swimmers conducted an extensive water search while additional shore-based teams managed incident command and provided logistical support.

Upon arrival of MABAS Division 113 Dive Team, divers were deployed to expand underwater search efforts in conjunction with Sheboygan Fire's surface operations. After approximately 90 minutes of continuous rescue efforts, the incident transitioned to a recovery operation. Both the Wisconsin DNR and Milwaukee Fire Department members provided sonar assistance to try and locate the victim.

All responding agencies continued coordinated recovery operations on site until the search was called due to visibility and diver safety. The Sheboygan Fire Department will resume search operations after 730am on Wednesday, July 16, 2025 in the morning.

Assisting agencies for this incident include: Sheboygan County Dive Team, Sheboygan County Sheriff, City of Sheboygan PD, City of Sheboygan Public Works, Wisconsin DNR, a K-9 search unit, and the Milwaukee Fire Department.
